ELESA original design

Guard safety handles

- **Glass-fibre reinforced polyamide based (PA) technopolymer.** Resistant to solvents, oils, greases and other chemical agents.
- **Grey-black** standard colour with matte finish.
- Technopolymer safety **cover** (ECO.S), to protect operator fingers against accidents, in one of the Ergostyle colours, glossy finish, supplied not assembled, snap mounting. Removable with a screwdriver.
- **Mounting** by means of two through holes for **cylindrical head screws** (CH) or **countersunk head screws** (SH).

When using guards on machines and automation systems, which include double hinged doors, the handle completely enclosed is a safety element for operator fingers while the doors are being used. the coloured cover, for example orange, makes identification easier.

When ordering please complete the code and the description of the element needed specifying the colour of the cover (see the available colours shown above the dimensions table).

Sample order:
265111 - C4 ESP.110-CH - C4
Handle with yellow cover

The covers are also available as accessories sold in one of the Ergostyle colours. When ordering the cover, please complete its code (2986) and basic description (ECO.S) with the indexes of the dimension and colour.

Sample order for covers:
2986 [4] - [C4] ECO.S4 - C4 = yellow cover for handle ESP.110

[4] → 4= ESP.110

[C4] →
C1= GREY-BLACK
C2= ORANGE
C3= GREY
C4= YELLOW
C5= LIGHT-BLUE
C6= RED

Resistance to application of a pulling load: the value F1 reported in the table, was measured during breaking test by a special dynamometric instrument under the illustrated test condition.
